BROWARD HEALTH NORTH, 201 EAST SAMPLE ROAD, DEERFIELD BEACH, FL

31st Annual

BROWARD ALZHEIMER'S COORDINATING COUNCIL CONFERENCE

A magnet of hope has drawn our hands and hearts together to serve in harmony those persons whose lives have been affected by Alzheimer's Disease. — E.S.L.

For the past 31 years, the Broward Alzheimer's Coordinating Council has initiated and perpetuated an annual conference that attracts, as well as maintains a loyal legion of advocates whose prime purposes are to: *serve the multiple needs of caregivers and patients; educate the electorate and associates regarding the need for governmental funding to support Alzheimer's programs; and establish, as well as, maintain a strong linkage of Alzheimer's projects designed to collaborate in a mission to help determine the causes and cures for the illness.*
